

PRODUCT DATA SHEET

XP-3 Defoamer for Oil Well Cementing

Product Description

XP-3 can de-foam through reducing surface tension of liquid.

Characteristics

- XP-3 belongs to silicone compound.
- Density is $1.45 \pm 0.03 \text{g/cm}^3$, non-poisonous, non-odor, non-corrosive, and no environment pollution.
- Normal dosage: 0.3%-0.5% (BWOC).
- It has various functions such as inhibiting foam, de-foaming, preventing migration of gas, defoaming rapidly.
- Resist corrosion of acid and base, as well as high temperature.
- Has good compatibility with other additives.
- Has no harmful influence on other properties of cement slurry.

Technical Specification

Items	Specification
Appearance	No hardening powder and particles
Fineness(0.42mm screen residue), %	≤ 7.0
Recovery rate of cement slurry density,%	≥ 90.0

Packing, Storage

- Three in one paper bag, 25kg/sack.
- Kept away from fire, damage and leakage in store and transportation.
- Storage life time is two years.
